

CHAPTER 4

FUTURE PROGRAMME OF WORK

4.1 In the year ahead, we will continue to discharge our responsibilities under the Commission's terms of reference and to tender advice on any proposals the Administration may put to us dealing with changes to the pay and conditions of service for individual grades or for the civil service as a whole.

4.2 We will continue to keep the methodology of the pay trend survey under review to ensure that the survey data collected is as creditable as possible. We will also conduct the annual updating of civil service starting salaries in the latter half of the year.

4.3 Last but not least, we will continue our liaison with the seven major civil service staff councils/associations and our contact with organizations outside the civil service to keep abreast of developments relevant to the discharge of our duties and responsibilities.
